

PU Stone Wall Panel, Sahara Beige
Polyurethane, 47.2 in x 2 ft, 30 mm
Thickness

- Polyurethane synthetic stone panel for interior and exterior use
- Sahara Beige large-format stone appearance
- 120 cm x 60 cm format at 30 mm thickness
- 2.28 kg per panel for lightweight handling and installation
- Packaged 10 units per box, manufactured in China
- Saw-cut on site and bonded with mounting adhesive

OVERVIEW

The Signature Wall Collection PU Stone Wall Panel is a polyurethane synthetic stone finishing material for interior and exterior construction applications. The Sahara Beige finish reproduces the appearance of large-format natural stone for receptions, fitness centers, living rooms and bedrooms.

Each panel measures 120 cm x 60 cm (47.2 in wide by 2 ft long) at 30 mm thickness and weighs 2.28 kg, keeping the assembly lightweight, flexible and adaptable to the substrate. Panels ship in boxes of 10 units and are cut to size with a saw, then bonded to a level, dust-free and moisture-free surface with a manufacturer-recommended mounting adhesive.

Maintenance is limited to removing dust buildup with a garden hose or pressure washer not exceeding 100 PSI.

SPECIFICATIONS

MECHANICAL

Product Dimensions	120 cm x 60 cm
Finish	SAHARA BEIGE
Material	Synthetic Stone
Mounting	Adhesive-bonded to prepared substrate
Weight	5.03 lb

DIMENSIONS & DIAGRAMS

Product Name	PU Stone Wall Panel
Format	120 cm x 60 cm
Weight	2.28 kg
Packaging	Box of 10 units
Thickness	3 cm
Density	-
Main Material	Polyurethane
Country of Origin	China

Tools: Cutting saw, safety gloves and glasses, mounting adhesive.

- Surface preparation:**
It must be level, free of bituminous material, moisture and dust.
- Cuts:**
Use a saw to cut the PU Stone panels according to the required measurements and shapes. Make sure to follow the manufacturer's instructions for a precise cut.
- Fastening:**
Apply an adhesive recommended by the manufacturer to the back of each panel. Make sure to distribute the adhesive evenly.
- Finishing:**
Make additional cuts in the panels as needed to fit corners and edges. Use specific trims or accessories for a professional finish.
- Maintenance:**
If necessary, remove dust buildup with a garden hose or pressure washer not exceeding 100 PSI, and take the necessary safety measures to avoid damage.

WARRANTY POLICIES

- Verify and receive the product to your satisfaction at the time of delivery. Claims for shortages, damage or dents after the merchandise has been received will not be accepted.
- The original manufacturer does not cover warranties for installed products that show differences in size, tone, color, scratches, warping or any visible defect that could have been detected before.

INSTALLATION

APPLICATIONS

Reception and lobby feature walls

Fitness center interiors

Living room accent walls

Bedroom wall finishes

Exterior facade cladding
