

Exterior Slatted Wood Corner Profile,
Dark Brown, 2900 x 50 x 50 mm, IP65
Rated

- Corner accessory sized 2900 × 50 × 50 mm for outside junctions
- IP65 rated for direct exterior exposure
- Waterproof slatted wood composite (WPC) construction
- Dark brown factory finish matched to the B-W1 panel range
- Fire-retardant, zero-maintenance exterior panel system
- Backed by a 1-year warranty

OVERVIEW

The B-W1-Corner-DB is an exterior-grade slatted wood corner profile finished in dark brown. Designed for architectural cladding and facade applications, it provides a clean mitered transition at outside corners where slatted wood wall systems meet. The 2900 × 50 × 50 mm profile suits commercial and residential exterior installations requiring a consistent, finished appearance at corner junctions.

The profile is part of the WPC exterior wood panel program and is supplied as a waterproof, fire-retardant slatted wood composite component rated IP65 for continuous outdoor exposure with zero maintenance.

Covered by a 1-year warranty.
