

Exterior Slatted Wood Corner Profile, Light Gray, 2900x50x50mm, IP65

- Slatted wood composite corner section in light gray finish
- 2900 × 50 × 50mm profile for full-height corner transitions
- IP65 rated for exposed exterior mounting
- Waterproof construction for facade and pergola installations
- 50,000-hour rated LED service life
- 1-year warranty

OVERVIEW

An exterior-grade slatted wood composite corner accessory finished in light gray, used where two runs of exterior wood panel meet at a corner junction. At 2900mm long with a 50×50mm profile, it suits commercial and residential facades, pergolas, soffits and similar outdoor linear assemblies requiring a finished corner transition.

The wood composite construction is waterproof and rated IP65 for exposed exterior positions, and supports LED assemblies rated for 50,000 hours of service life.

Covered by a 1-year warranty.
