

Exterior Slatted WPC Panel, Dark Brown, Waterproof & Fire Retardant, 114x9x1 in.

OVERVIEW

The B-W1-DB is a slatted wood-plastic composite (WPC) exterior wall panel designed for commercial and residential facade applications. Manufactured from recycled PVC and wood fiber, it delivers the visual warmth of natural wood in a format suited for outdoor installation.

The panel is waterproof and fire retardant, requiring zero ongoing maintenance. Each panel measures 114.17 in. x 8.66 in. x 1.02 in. and is available in Light Brown, Dark Brown, Black, and Grey finishes to accommodate a range of design specifications.
