

## Black Slatted Wood Composite Indoor Wall Panel, 114 x 8.6 x 1 in.

### OVERVIEW

---

The B-W2-B is a black slatted interior wall panel measuring 114 x 8.6 x 1 in., constructed from a recycled PVC and wood fiber composite. Designed for commercial and residential interior applications, it provides a wood-grain aesthetic without the maintenance demands of natural timber.

The composite construction offers resistance to warping, moisture, and general wear associated with standard wood products. Individual slat panels are lightweight and dimensioned for straightforward handling and installation on interior wall surfaces.

No certifications are confirmed in the available source data. Contractors and specifiers should verify compliance requirements with the manufacturer prior to procurement. Warranty terms are not confirmed in the available documentation and should be confirmed directly with the supplier.
