

Indoor Wood Panel Corner Trim, Old Oak Finish, 114 x 1 x 1 in Recycled PVC Composite

- Corner trim for indoor wood slat wall panel systems
- Recycled PVC with wood fiber additives for durability
- 114 × 1 × 1 in profile suits full-run installations
- Old Oak finish matched to classic style wood slat panels
- Finishes both inside and outside corner transitions

OVERVIEW

This corner trim piece completes indoor wood slat wall panel systems, finishing inside and outside corner transitions in a matching Old Oak profile. It is used in residential interiors, offices, hospitality spaces and retail buildouts where slat paneling meets a wall return or column.

The trim is manufactured from recycled PVC with wood fiber additives, a composite that provides durability and resistance while retaining a wood appearance. Measuring 114 × 1 × 1 inches, the profile supports full-height and full-run installations with minimal seaming, and the light section weight allows single-installer handling.

SPECIFICATIONS

MECHANICAL

Product Dimensions	114 × 1 × 1 in
