

Indoor Wood Panel Corner Trim, Red Chestnut Finish, 114 in Length, Recycled PVC and Wood Fiber

- Corner trim for classic style wood slat panel systems
- Red Chestnut finish matched to indoor wood panel lines
- Recycled PVC with wood fiber additives for durability
- 114 × 1 × 1 in profile covers full-height interior corners
- Lightweight section for straightforward interior installation

OVERVIEW

An indoor corner trim piece designed to finish and accent wood slat wall panel installations. Finished in Red Chestnut, it provides clean transitions at interior corners and is suited for residential and commercial interior applications.

Constructed from recycled PVC with wood fiber additives, the trim offers durability and resistance while maintaining a natural wood aesthetic. The lightweight, manageable profile simplifies installation and measures 114 inches in length with a 1-inch by 1-inch cross-section.
