

Indoor Wood Panel Corner Trim, Red Mahogany, 114-Inch Length, 1 x 1-Inch Profile

- Corner transition trim for indoor wood slat wall panel systems
- 114 × 1 × 1-inch profile for full-height interior wall runs
- Recycled PVC construction with wood fiber additives
- Red Mahogany finish coordinated with matching panel lines
- Lightweight composite body for single-installer handling

OVERVIEW

An indoor corner trim piece designed to finish and frame wood slat wall panel installations. Measuring 114 inches in length with a 1 × 1-inch profile, it is intended for use with compatible wood slat panel systems in interior applications where a clean, continuous corner transition is required.

Constructed from recycled PVC with wood fiber additives, the trim offers durability and resistance while maintaining the appearance of natural wood. The Red Mahogany finish coordinates with matching panel lines, and the lightweight composite construction is designed for straightforward handling and installation.
