

Decorative Polystyrene Wall Panel in Cream, 6.69 in W x 9.51 ft L, IP20

- Polystyrene (PS) construction for a lightweight, rigid panel
- Cream finish suited to interior decorative applications
- Panel dimensions of 114.17 × 6.69 × 0.47 inches
- IP20 rated, classified non-waterproof for dry interior use
- Backed by a 1-year warranty

OVERVIEW

The B-WPE-CREAM is a decorative polystyrene (PS) wall panel finished in cream, designed for interior surface applications where lightweight cladding and aesthetic detailing are required. At 6.69 inches wide and 9.51 feet in length with a 12 mm thickness, each panel covers a practical run of wall surface and is suited for commercial interiors, retail environments, and renovation projects.

Constructed from polystyrene, the panel offers a rigid, lightweight build that simplifies handling and installation. The slim 12 mm profile keeps wall projection minimal, making it compatible with most standard interior finishing assemblies. The panel carries an IP20 rating and is classified non-waterproof, indicating suitability for dry interior locations only.

The panel is backed by a 1-year warranty.
