

Hollow Steel Wall Frame Holder, 12 x 120 mm (W x H), Wall-Mount Standoff, 10-Piece Bag

- Steel construction for sustained load-bearing performance
- 12 x 120 mm (W x H) profile for discreet wall placement
- Hollow body reduces weight while retaining rigidity
- Compatible with standard frame mounting brackets
- Supplied 10 pieces per bag for multi-point installs
- Backed by a 1-year warranty

OVERVIEW

The BS-12012 Hollow Steel Wall Frame Holder is a steel mounting channel designed to securely attach frames to wall surfaces in both commercial and residential installations. Its hollow-profile construction reduces weight while maintaining structural integrity, and its compact 12 x 120 mm (W x H) footprint allows for discreet placement. The holder is compatible with standard frame mounting brackets, providing a stable, snug fit for frames of various sizes.

Constructed from steel, this holder is built for long-term durability under typical interior mounting conditions. The hollow design simplifies handling and installation without sacrificing load-bearing performance. Units are supplied 10 per bag for multi-panel layouts.

Covered by a 1-year warranty.
