

Acrylic Board Support, 12mm W x 20mm H — 4-Piece Set

OVERVIEW

The BS-1220-A is an acrylic board support measuring 12mm wide by 20mm high, supplied in a 4-piece bag. These supports are used to mount and display acrylic panels, sign boards, and similar flat sheet materials in commercial and retail signage applications.

Each bag contains four identical supports, providing a complete set for a single panel installation. No additional specification data is available from the source documentation.
