

Acrylic Board Support, 16mm W x 25mm H — 4-Piece Set

OVERVIEW

The BS-1625-A is an acrylic board support measuring 16mm wide by 25mm high, sold in a 4-piece bag. These supports are used to mount and display acrylic panels, sign boards, and similar flat sheet materials in commercial and retail signage applications.

Each set includes four identical supports, providing a balanced mounting solution for standard acrylic panel installations. No additional performance specifications or material certifications are confirmed in available source data.
