

Board Support Brush, Gold Polished, 12mm W x 25mm H, 10-Piece Bag

OVERVIEW

The BS-2512G Board Support Brush in gold polished finish is a metal trim accessory designed for use with board-mounted display and signage installations. With a width of 12mm and a height of 25mm, it provides a finished edge treatment that secures and supports panel edges in commercial and professional environments.

Constructed with a polished gold finish, this brush profile offers a clean, uniform appearance suitable for interior signage frames, display boards, and architectural trim applications. Its compact profile allows for discreet integration into existing board assemblies without adding significant bulk.

No certifications, compliance listings, or warranty terms are confirmed in the available source data for this product. Contractors and specifiers should verify suitability for their specific application requirements prior to installation.
