

Gold Board Support Standoff, 19mm W x 25mm H, 3/4 in. Dia., 6-Pack

OVERVIEW

The BS-2519G Gold Board Support Standoff is a compact mounting accessory designed to elevate and stabilize circuit boards within enclosures, panels, and electronic assemblies. Measuring 19mm in width and 25mm in height, it provides a firm, consistent standoff distance suitable for a range of board configurations. The gold finish offers a clean appearance in finished assemblies.

Constructed for reliable mechanical support, these standoffs maintain board position and reduce the risk of contact with mounting surfaces. The compact footprint makes them practical for installations where space is constrained. Each pack contains 6 units, allowing coverage of a standard board mounting layout in a single order.

No certifications, compliance listings, or warranty terms are confirmed in the available source data for this product. Contractors and specifiers should verify suitability for their specific application requirements prior to installation.
