

Gold Board Support Standoff, 22mm W x 25mm H, 6-Piece Bag

- Gold finish for reliable electrical conductivity at contact points
- Measures 22mm wide by 25mm tall for board standoff mounting
- Height of 1in with a diameter of 7/8in
- Sold in a 6-piece bag for multi-point board support
- 1-year warranty coverage
- Rated for 50,000 hour service life

OVERVIEW

The BS-2522G Board Support is a gold-finish mounting standoff designed for securing circuit boards within enclosures and electronic assemblies. Measuring 22mm wide by 25mm tall, it provides stable board positioning while maintaining clearance for airflow and heat dissipation, helping to protect components from thermal damage.

Constructed from quality materials, the board support offers strong mechanical retention and wear resistance. The gold finish promotes reliable electrical conductivity at contact points. The design supports a clean, organized system layout and is suited for straightforward installation across a range of board mounting applications. Sold in a 6-piece bag.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

MECHANICAL

Product Dimensions 22mm x 25mm

Finish Gold

ORDERING

Warranty 1 y

APPLICATIONS

- Circuit board mounting in electronic enclosures
- Signage panel standoff support
- Equipment chassis assembly
- Control panel board spacing
