

Standoff Board Support, Brushed Silver, 12 mm Diameter x 30 mm Height, 10 per Bag

- 12 mm diameter barrel sized for narrow-profile panel supports
- 30 mm standoff height sets panel projection off the substrate
- Brushed silver finish for interior signage and display installs
- Imperial equivalent of 1/2 in diameter by 1 3/16 in height
- Packaged 10 pieces per bag for multi-point panel layouts
- Backed by a 1-year warranty

OVERVIEW

The Board Support Brush Silver is a standoff board support used to mount and space sign panels, boards and display graphics away from a wall or substrate. The narrow 12 mm diameter body suits interior signage, directory panels and retail display work where precise board positioning is required.

Each unit measures 12 mm in width by 30 mm in height (approximately 1/2 in diameter by 1 3/16 in projection) and carries a brushed silver finish that suits commercial interior environments. The compact form factor keeps hardware visually recessive while supporting the panel against vibration and physical damage. Standoffs are packaged 10 pieces per bag for multi-point layouts.

Covered by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

MECHANICAL

Product Dimensions 12 mm W x 30 mm H (1/2 in dia. x 1 3/16 in H)
