

Board Support Brush, Silver, 16mm W x 30mm H, 35mm Screw, 6-Pack

OVERVIEW

The BS-3016 Board Support Brush in silver is a compact mounting accessory designed to support and secure signage boards and display panels. Measuring 16mm wide by 30mm tall with a 35mm attachment screw, it is suited for installations where space is limited and a clean, finished appearance is required. It is available in a 6-pack configuration, making it practical for multi-point installations on a single project.

The silver finish provides a neutral, professional appearance compatible with a range of board materials and frame systems. The included 35mm screw is intended to provide a secure mechanical connection during installation. No electrical, thermal, or photometric performance data is available for this accessory, as it functions solely as a mechanical support component.

No certifications, compliance listings, or warranty terms are confirmed in the available source documentation for this product. Contractors and specifiers should verify suitability for their specific application and consult the manufacturer for any compliance or load-bearing requirements prior to installation.
