

Standoff Board Support, Polished Gold, 25 mm Diameter x 30 mm Height, 4-Pack

- Polished gold finish for exposed, front-of-house installations
- 25 mm barrel diameter, approximately 1 in across
- 30 mm standoff height, approximately 1 - 1/6 in panel offset
- Cylindrical body profile for sign face and board support use
- Packaged four pieces per bag for a four-corner panel layout

OVERVIEW

The BS-3025G is a polished gold board support standoff used to mount and space sign faces, acrylic panels and boards away from a wall or backing surface. It suits signage assemblies, directory panels and similar flat-panel mounting work.

The barrel measures 25 mm across by 30 mm tall, equivalent to approximately 1 in diameter by 1 - 1/6 in height, giving a fixed standoff depth behind the mounted panel. The polished gold finish is intended for exposed, front-of-house installations where the hardware remains visible.

Supplied four pieces per bag, matching the typical four-corner mounting pattern for a single panel.

SPECIFICATIONS

MECHANICAL

Product Dimensions	25 mm diameter x 30 mm height (approx. 1 in dia. x 1 - 1/6 in H)
Finish	Polished gold
Material *	Metal
Mounting	Standoff / board support

APPLICATIONS

- Acrylic and panel sign faces
- Lobby directory and wayfinding boards
- Retail display panel mounting
- Interior wall-mounted graphic panels
