

## Board Support Standoff, 19mm W x 40mm H (3/4 in. Diam.), 4-Pack

### OVERVIEW

---

The BS-4019 Board Support is a standoff accessory designed to mount and stabilize boards or panels in commercial signage and display installations. Measuring 19mm in width and 40mm in height, it provides a fixed offset between the mounted panel and the substrate surface. Sold in a 4-pack, it is suited for applications requiring consistent spacing and secure panel retention.

Constructed for durability in mounting applications, the standoff accommodates various board sizes and configurations. Its compact profile keeps the overall assembly low-profile while maintaining structural support for the mounted panel. Installation is straightforward, making it practical for use in sign fabrication, panel mounting, and related trade applications.

No certifications, compliance listings, or warranty terms are confirmed in the available source data for this product. Contractors and specifiers should verify suitability for their specific application requirements prior to installation.
