

Board Support Gold Standoff 19mm W x 40mm H, 3/4 in. Diameter (6-Pack)

- Gold finish for exposed architectural and signage mounting
- 19mm width with a 3/4-inch barrel diameter
- 40mm height sets a fixed offset from the backing surface
- Packaged 6 pieces per bag for multi-point panel layouts
- Backed by a 1-year warranty

OVERVIEW

The BS-4019G is a gold-finish board support standoff measuring 19mm in width and 40mm in height, with a 3/4-inch diameter. These standoffs are used to mount and offset printed circuit boards, display panels, or signage substrates from a backing surface, providing both mechanical support and a finished appearance in visible installations.

The 40mm body height sets a fixed standoff depth between the substrate and the wall or backing panel, while the 3/4-inch diameter barrel presents a consistent exposed profile across a run of supports. Units are supplied 6 pieces per bag for multi-point layouts on a single panel.

Covered by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

MECHANICAL
