

Board Support Brush, Silver Finish, 40mm W x 50mm H, 25mm Screw, 4-Pack

OVERVIEW

The BS-5040 Board Support Brush in silver finish is a mounting accessory designed to support and secure boards in sign, display, and light box fabrication applications. The bracket measures 40mm wide by 50mm tall and includes a 25mm fastening screw. It is sold in a 4-pack configuration, making it suitable for multi-point mounting installations.

Constructed with a silver-finish metal body, the support brush provides a stable attachment point for board materials used in cabinet and channel letter assemblies. The included screw allows for direct fastening without additional hardware. Its compact profile is suited for installations where clearance between the board and mounting surface is a design requirement.

No certifications, compliance listings, or warranty terms are confirmed in the available source data for this product. Contractors and specifiers should verify suitability for their specific application and jurisdiction prior to installation.
