

## Stainless Steel Wall Frame Holder, 18x25mm, 1 in. Height (3-Pack)

### OVERVIEW

---

The BS-A2518 is a solid stainless steel wall frame holder designed for mounting and securing frames in commercial and architectural display applications. With an 18x25mm profile, it is suited for use in environments where a clean, low-profile mounting solution is required. The polished stainless steel construction provides corrosion resistance and structural durability for long-term installation.

The holder is fabricated from stainless steel, offering inherent resistance to oxidation and mechanical wear under standard indoor conditions. The fixed-profile design accommodates frames within the specified dimensional range, and the polished finish is compatible with a variety of interior environments where appearance and longevity are both considerations.

No certifications, compliance listings, or warranty terms are confirmed in the available source documentation for this product. Contractors and specifiers should verify applicable code compliance and suitability for their specific installation requirements prior to procurement.
