

Solid Stainless Steel Wall Frame Holder, 18 x 30 mm, 6-Piece Pack

OVERVIEW

The BS-A3018 is a stainless steel wall frame holder designed for secure, flush-mounted installation of frames in commercial and institutional environments. Measuring 18 x 30 mm per unit and supplied in a 6-piece pack, it is suited for signage, display, and framing applications where a clean, permanent wall mount is required.

Constructed from stainless steel, the holder provides corrosion resistance appropriate for interior installations. The fixed dimensions of 18 x 30 mm offer a defined mounting footprint. No electrical, thermal, or output specifications apply to this mechanical hardware component.

No certifications, compliance listings, or warranty terms are confirmed in the available source documentation. Installers should verify suitability for their specific substrate and load requirements prior to installation.
