

Solid Stainless Steel Wall Frame Holder, 40x50mm, 22mm Screw Mount

- Machined from solid stainless steel for structural rigidity
- 40×50mm footprint accommodates various frame sizes
- 22mm screw length simplifies wall mounting
- Corrosion-resistant construction suited to interior use
- Backed by a 1-year warranty

OVERVIEW

The BS-A5040 is a solid stainless steel wall frame holder designed to securely mount frames in commercial and residential installations. With a 40×50mm footprint, it accommodates a variety of frame styles and sizes, making it a versatile hardware solution for contractors and property managers.

Constructed from stainless steel, the holder provides structural rigidity and resistance to corrosion. Installation is straightforward, utilizing a 22mm screw length. The low-profile, contemporary form factor is suited to a range of interior environments without conflicting with existing decor.

The product carries a 1-year warranty.
