

Aluminum Board Holder, 8 mm Board Thickness, 20 mm Round Corner, 4 Pieces per Bag

- Aluminum construction for rigid signage panel retention
- Sized for panel and board stock of 8 mm thickness
- 20 mm holder length with round corner geometry
- Packaged four holders per bag for four-corner mounting
- Covered by a one-year manufacturer warranty

OVERVIEW

The BS-G8-20R is an aluminum board holder designed for signage and display boards with an 8mm thickness. Featuring round corners and a 20mm profile, it is suited for securing and framing panel-based signage in commercial and light industrial installations. Each bag contains four holders, making it practical for full-frame or multi-point mounting applications.

The aluminum body provides a rigid clamping edge for rigid panel stock and finished sign faces, with the rounded corner profile reducing exposed sharp edges in occupied areas.

Supplied with a one-year warranty.
