

Aluminum Board Holder, 12 mm Panel Thickness, 180-Degree Straight Profile

- Aluminum construction for corrosion resistance and stability
- Accepts panel material up to 12 mm in thickness
- 180-degree straight profile for in-line panel alignment
- Secure retention geometry for signage, artwork, and documents
- Backed by a 1-year warranty

OVERVIEW

An aluminum board holder sized for panel material up to 12 mm thick, used to secure signage, artwork, photographs, and printed documents in commercial and residential installations. The 180-degree configuration produces a straight, in-line mounting profile suited to flat display and presentation layouts.

The body is machined from aluminum for corrosion resistance and dimensional stability under repeated handling. Retention geometry holds panel stock securely without additional fasteners at the panel face, maintaining a consistent appearance over extended service.

Covered by a 1-year warranty.
