

Aluminum T - Shape Frame Holder for 12mm Panel Thickness, 2 Pieces per Bag

- T-shape profile retains aluminum frames of 12mm panel thickness
- Aluminum construction resists wear across extended service life
- Packaged two pieces per bag for paired mounting points
- Adjustable positioning allows alignment after initial mounting
- Covered by a one-year manufacturer warranty

OVERVIEW

The BS-H12-T is an aluminum T-shape frame holder designed to secure aluminum frames with a 12mm panel thickness. It is suited for commercial display and framing applications where a stable, organized mounting solution is required.

Constructed from aluminum, the holder is built for durability and resistance to wear over extended use. The T-shape profile provides secure retention and is compatible with a range of framing configurations. Installation and positional adjustment are straightforward, making it practical for professional installation environments. Each bag contains two pieces.

The holder is covered by a one-year warranty.
