

Sign Screw Covers, 12 mm Diameter, Shiny Finish, Four Pieces per Bag

- 12 mm diameter cap sized for common sign fastener heads
- Shiny surface finish for visible, exposed mounting points
- Conceals screw heads to produce a uniform face appearance
- Supplied four pieces per bag, priced per individual piece
- Covered by a one-year warranty

OVERVIEW

The BS-SC12 is a 12 mm diameter screw cover used to conceal exposed screw heads and produce a clean, finished surface. It suits signage assembly, fixture mounting and general installation work where fastener heads remain visible after mounting.

The cover carries a shiny surface finish and is supplied four pieces per bag, with pricing applied per individual piece. The 12 mm diameter matches common sign and panel fastener head sizes.

A one-year warranty applies.
