

Screw Cover Caps, 20 mm Diameter, 4 Pieces per Bag, Sign Mounting Hardware

- 20 mm diameter cap sized to conceal standard screw heads
- Supplied four pieces per bag to match fastener counts
- Conceals exposed hardware for a finished surface appearance
- Specified for residential and commercial installations
- Covered by a one-year warranty

OVERVIEW

The BS-SC20 Screw Cover Cap is a 20 mm diameter cover designed to conceal exposed screw heads, providing a clean, finished appearance on installed fixtures, sign faces and panel assemblies. Suitable for both residential and commercial applications, it is intended for use wherever a polished, professional surface finish is required.

Each cap covers a single fastener and is supplied four pieces per bag, allowing quantities to be matched to the fastener count of a given assembly. The cap conceals the screw head after final tightening without altering the mounting method.

The product carries a one-year warranty.
