

Round Steel Wire Hanging Fixer, 18mm Diameter, Small Suspension Clip

- Round steel construction for durable wire retention
- 18mm diameter profile suited for small-scale hanging tasks
- Secures suspension wire against slippage or loosening
- Mounts to walls, ceilings, or other flat surfaces
- Backed by a 1 year warranty

OVERVIEW

The BS-W-A01S is a round steel wire hanging fixer designed to secure suspension wire to walls, ceilings, or other mounting surfaces. With an 18mm diameter profile, it is suited for hanging signage, artwork, decorations, or lightweight shelving in commercial and light-duty applications. Constructed from high-quality steel, the fixer is built to grip suspension wire firmly, preventing slippage or loosening over time. Its compact, round form factor allows for straightforward installation and leaves a clean finished appearance once mounted.
