

Stainless Steel Wire System Holder,
42mm Base, 37mm Length, 2 - Pack

- Stainless steel construction for corrosion resistance
- 42 mm base length for stable anchoring to flat surfaces
- 37 mm holder length for a low -profile installed appearance
- Packaged two pieces per bag for paired suspension runs
- Covered by a one -year manufacturer warranty

OVERVIEW

The BS-W-A06 is a stainless steel wire system holder designed to secure and organize suspension wiring in commercial and residential installations. Its compact form factor, with a length of 37mm and a 42mm base, makes it compatible with both small and large wire management systems, providing a clean, clutter - free cable routing solution.

Constructed from stainless steel, the holder offers durability and corrosion resistance suitable for a range of environments. The low -profile body integrates discreetly into existing wire system layouts without adding bulk, and each bag contains two pieces for paired runs.

The holder is covered by a one -year warranty.
