

Stainless Steel Wire Suspension Cap,
Corrosion-Resistant Cable Termination,
2 Pieces per Bag

- Stainless steel construction for corrosion resistance
- Supplied two pieces per bag for paired cable terminations
- Integrates with compatible wire suspension system components
- Rated for indoor and outdoor installation, including weather exposure
- Covered by a 1-year warranty

OVERVIEW

The BS-W-A12 is a stainless steel cap for wire suspension systems, providing a secure termination point for cable railing, architectural fencing, and related structural assemblies. It suits residential and commercial installations where a clean, finished appearance is required at the anchor point.

Constructed from stainless steel, the cap offers corrosion resistance appropriate for indoor and outdoor environments, including exposure to weather. It integrates directly into compatible wire system components for a stable mechanical connection, and is supplied two pieces per bag.

The cap is covered by a 1-year warranty.

SPECIFICATIONS

OPTICAL
