

Wire System Board Holder, Stainless Steel with Zinc Finish, 12mm Dia x 18mm L, 4-Pack

- Stainless steel body for corrosion resistance in commercial interiors
- Zinc finish for a consistent decorative appearance
- 12mm diameter by 18mm length compact profile
- Supplied 4 pieces per bag for multi-point mounting
- Clamping design limits board movement and vibration
- Backed by a 1-year warranty

OVERVIEW

A stainless steel wire system board holder with a zinc finish, used to mount and retain sign panels and system boards on suspended wire hanging systems in retail, commercial and industrial interiors. Each bag contains four pieces.

The holder measures 12mm in diameter and 18mm in length, a compact form factor suited to installation in confined spaces without sacrificing holding strength. Stainless steel construction with a zinc finish provides corrosion resistance, while the clamping design maintains a secure grip on the board and limits movement and vibration. The compact body accommodates a range of board sizes and mounting configurations.

Covered by a 1-year warranty.
