

Steel Wire Hanging System, Round Adjustable Double - Sided Holder, 13mm Opening (2 - Pack)

- Steel construction for durable, secure item support
- Round holder with 13mm opening for compatible wire attachments
- Double-sided design enables display from multiple angles
- Adjustable orientation for flexible mounting positions
- Sold as 2 pieces per bag
- Backed by a 1-year warranty

OVERVIEW

The BS-W-A48R Steel Wire Hanging System is a display mounting hardware component featuring an adjustable round holder with a 13mm opening. It is suited for art galleries, retail environments, and general commercial or residential installations where secure item suspension is required. The double-sided configuration allows items to be presented from multiple angles, supporting efficient use of space in compact settings. Each package includes two pieces and carries a 1-year warranty.
