

Square Two-Side Vertical Steel Wire Hanging System Fixer, 36mm

- Steel construction for sustained load-bearing service
- 36mm square body sized for vertical suspension runs
- Two-sided fixer format for balanced cable alignment
- Supports signage, artwork and display panel suspension
- Covered by a one-year warranty

OVERVIEW

The BS-W-A48V is a square, two-sided steel wire hanging system fixer designed for vertical suspension applications. Its 36mm width provides stable support for mounting signage, artwork, and display elements in commercial, office, and industrial environments.

Constructed from steel, the fixer is built for durable, long-term use. The two-sided, square configuration promotes consistent alignment and load stability in vertical installations.

The fixer is covered by a one-year warranty.

SPECIFICATIONS
