

Wire Hanging System Fixer, Square
Single-Side Vertical, 18mm Steel, 1-Year
Warranty

- Steel construction for durable, repeatable load support
- 18mm vertical profile for compact suspension points
- Square single-side body for uniform hardware appearance
- Adjustable positioning along the wire for even weight distribution
- Suited to both commercial and residential display installations
- Backed by a 1-year warranty

OVERVIEW

The BS-W-A49V is a square single-side vertical wire hanging fixer used to suspend displays, signage, and related fixtures in commercial and residential interiors. The 18mm vertical profile provides a compact, stable attachment point for cable suspension layouts.

Constructed from steel for durability and reliable load support, the fixer accepts straightforward installation and positional adjustment along the wire, allowing weight to be distributed evenly across multiple hanging points. The square body presents a clean, uniform appearance in visible display hardware runs.

Supplied with a 1-year warranty.
