

Stainless Steel Wire System Board Holder, 12mm Diameter, 10–12mm Height

- Stainless steel construction for corrosion resistance
- 12mm diameter body sized for wire system hardware
- 10mm to 12mm height range suits varying board thicknesses
- Compact profile for installation in confined mounting setups
- Supplied with a one-year manufacturer warranty

OVERVIEW

The BS-W-A50 is a stainless steel wire system board holder designed to securely retain system boards in commercial and industrial mounting applications. With a 12mm diameter and a height range of 10mm to 12mm, it accommodates varying board thicknesses and integrates with a range of mounting configurations.

Constructed from stainless steel, the holder provides corrosion resistance and dimensional stability, minimizing unintended board movement or disconnection. The compact form factor supports straightforward installation across different setups.

The holder is supplied with a one-year warranty.
