

Stainless Steel Wire, 2mm Diameter,
50m Roll, for Sign and Fixture
Suspension

- Stainless steel construction for corrosion resistance
- 2mm wire diameter suited to fixture suspension loads
- Supplied in a 50m roll for continuous-length installations
- 1 year warranty coverage

OVERVIEW

This stainless steel suspension wire is supplied in a 2mm diameter profile on a 50m roll, intended for hanging and tensioning applications in commercial and industrial lighting installations. Common uses include suspending LED luminaires, sign cabinets, and display fixtures where a durable, corrosion-resistant support cable is required.
