

## RF Touch Wall Panel Remote, 4-Zone, 2.4GHz, Battery-Powered, 5-in-1 Compatible

### OVERVIEW

The C-5IN1-WP-3-5-BK is a 2.4GHz RF capacitive touch wall panel remote designed for 4-zone wireless control of compatible LED lighting systems, controllers, and smart panel controllers. Battery-powered via 2xAAA cells (3V), it is suited for retrofit and new installations where line-voltage wiring to the remote is not practical.

The remote operates on the 2.4GHz band using GFSK modulation, with a transmitting power of 6dBm and a control distance of up to 30m. Standby current draw is 20mA. The capacitive touch interface supports per-zone on/off, dimming, and linking/unlinking of fixtures. Operating temperature range is -10°C to 40°C. Body dimensions are 86x86x16mm.

### SPECIFICATIONS

<b>Power</b>	0.15 W	<b>Operating temp</b>	-10 to 40 °C
<b>Input voltage</b>	AC 100–240 V
