

Touch Dimming Wall Remote, 2.4GHz Wireless, 1-Channel 1-Zone, Black

OVERVIEW

The FUT087-B is a touch-style wireless dimming remote designed for single-channel, single-zone control of MiBoxer and Mi-Light 2.4GHz series lighting products. It is suited for commercial and residential installations where wall-mounted RF control of dimmable luminaires is required.

The remote operates on 2.4GHz RF with GFSK modulation across a 2400–2483.5MHz frequency range, providing a control distance of up to 30 meters. It runs on two AAA batteries at 3V DC with a standby current draw of 20µA. It is rated for operating temperatures from -20°C to 60°C. Transmitting power is rated at 6dBm. The unit is finished in black (model FUT087-B).

SPECIFICATIONS

Input voltage	3V (AAA x 2) V	Operating temp	-20 to 60 °C
