

4-Zone CCT Remote Control, 2.4GHz, 30m Range, 3V AAA Battery

OVERVIEW

The S1W+ is a 4-zone CCT remote control designed for use with MiBoxer/Mi-Light 2.4GHz wireless lighting systems. It provides independent brightness and color temperature adjustment across up to four zones, making it suitable for commercial and residential installations where segmented lighting control is required.

The remote operates on 3V DC supplied by two AAA batteries and transmits on the 2.4GHz RF band with a standby current draw of 20µA and transmitting power of 6dBm. Wireless control range extends to 30 meters. The unit is rated for operating temperatures from -10°C to 40°C (14°F to 104°F).

SPECIFICATIONS

Input voltage	3V (2x AAA Battery)	Operating temp	-10 to 40 °C
