

2.4GHz CCT Remote Control, 1-Zone, 30m Range, 3V AAA Battery

OVERVIEW

The C-5IN1-WPR-CCT-B is a 2.4GHz RF wireless remote control designed for adjusting brightness and color temperature on compatible MiBoxer/Mi-Light 2.4G series fixtures and drivers. It is intended for single-zone control applications in commercial and residential lighting installations where wireless CCT tuning is required.

The remote operates on 3V DC supplied by two AAA batteries and transmits at 6 dBm over the 2.4GHz band with a control range of up to 30 meters. Standby current draw is 20µA. The unit is rated for operating temperatures from -10°C to 40°C (14°F to 104°F). The S1-B variant is finished in black.

SPECIFICATIONS

Input voltage	3V (AAA x 2) V	Operating temp	-10 to 40 °C
