

2.4GHz CCT Remote Control, 1-Zone, 30m Range, 3V AAA Battery

OVERVIEW

The C-5IN1-WPR-CCT is a 2.4GHz RF wireless remote control designed for single-zone brightness and color temperature adjustment of compatible MiBoxer/Mi-Light 2.4G series fixtures. It is intended for use in commercial and residential lighting control applications where a simple, dedicated CCT tuning interface is required.

The remote operates on 3V DC supplied by two AAA batteries and transmits at 6 dBm over the 2.4GHz RF band with a control range of up to 30 meters. Standby current draw is rated at 20µA. The unit is rated for operating temperatures from -10°C to 40°C (14°F to 104°F). Two color variants are available: black (S1-B) and white (S1-W).
