

Extension Cable for ES32 Sensor Stair Light, 5m Length

- 5-meter cable length for extended wiring runs
- Purpose-built for ES32 Sensor Stair light systems
- Enables connection where standard cable length is insufficient
- Simplifies installation across longer staircases or runs

OVERVIEW

The C-ES32-Z-E-5M is a 5-meter extension cable designed for use with the ES32 Sensor Stair lighting system. It provides the additional wiring length needed to connect ES32 stair sensor fixtures in installations where standard cable runs are insufficient.

This cable extends the reach between ES32 sensor units and control or power points, supporting longer stair runs or fixtures positioned farther from the source connection.

SPECIFICATIONS

MECHANICAL

Length	5 m 16.4 ft
--------	----------------

APPLICATIONS

- Staircase lighting installations
- Sensor stair light systems
- Extended wiring runs for ES32 fixtures
