

2.4 GHz Mini CCT Remote Control with Magnetic Holder, 30m Range

OVERVIEW

The C-MH-CCT-GFSK is a 2.4 GHz RF mini remote control designed to adjust brightness and color temperature on compatible MiBoxer and Mi-Light 2.4G series fixtures. It is intended for use in commercial and residential lighting control applications where a compact, wall-mountable wireless controller is required.

The remote operates on a 3V CR2032 coin cell battery (sold separately) with a standby current draw of less than 6µA, providing a control range of up to 30m. Transmitting power is rated at 6dBm. Operating temperature range is -10°C to 40°C (14°F to 104°F). The unit mounts via magnetic attachment to an included base, which can be affixed with double-sided tape. Two base form factors are available: K2/K2-B (86mm x 60mm, 9mm depth) and K2S/K2S-B (86mm x 60mm, 15mm depth). Pairing and unpairing with compatible luminaires is performed through a defined button sequence at the fixture.

No certifications are confirmed in the available source data for this product.

SPECIFICATIONS

Input voltage	3V DC (CR2032) V	IP rating	IP20
Operating temp	-10 to 40 °C	Dimensions	86 x 86 mm
