

LED/CFL Dimmer Switch, Single Pole & 3-Way, 150W LED/CFL, 600W Incandescent, 120V

OVERVIEW

The C-PAC-150-3 is a single-pole and 3-way SCR dimmer switch designed for controlling dimmable LED, CFL, and incandescent lighting in commercial and residential installations. It operates at 120VAC/60Hz and requires no neutral wire, simplifying retrofit applications. A large paddle switch handles on/off control while a vertical slider provides smooth dimming adjustment.

The switch supports up to 150W of dimmable LED or CFL loads (2A maximum) and up to 600W of incandescent or halogen loads. The thermoplastic enclosure carries a UL94 V0 flame rating and is rated for operating temperatures from -20°C to 60°C. Switching life is rated at 40,000 cycles. Wiring is compatible with 18AWG conductors.

The C-PAC-150-3 is cETLus listed to UL 1472 and CSA C22.2 No.184.1-15. A 1-year limited warranty is included.

SPECIFICATIONS

Power	150 W	Weight	72 g
Input voltage	120VAC V	Operating temp	-20 to 60 °C
Dimensions	116 x 70.2 x 41 mm
