

3-Channel Chase Light Controller, 12V DC, 324W, Indoor Use

- Delivers 324W of power output for chase light loads
- Operates on a 12V DC input voltage
- Rated for ambient operating temperatures of 0-40°C
- Compatible with LEDs rated for a 50,000 hour lifetime
- Backed by a 1 year warranty
- Designed for indoor use only, not waterproof

OVERVIEW

The C-R-Chase is a remote controller designed for chase light systems, providing centralized control over light patterns and sequences. It is suited for installations where programmable chase lighting effects are required, such as signage or decorative lighting runs.

The controller operates at 12V DC with a power output of 324W, supplying sufficient capacity to drive chase light loads. It is rated for an ambient operating range of 0-40°C and pairs with LED loads rated for a 50,000 hour lifetime, supporting long-term operation in indoor environments.

The unit carries a 1 year warranty and is intended for indoor use only.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
