

4-Gang Wall Plate, Two Decorator and Two GFCI Openings, Night Black Brass, 120V 15A

- 4-gang configuration with two decorator openings and two GFCI openings
- Brass construction with Night Black finish
- Rated 120V, 15A for standard branch circuit service
- IP20 rated, Non-Waterproof, suited to dry indoor locations
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-AB-4-D-D-G-G is a 4-gang wall plate combining two decorator openings and two GFCI openings, finished in Night Black brass. It is intended for residential and light commercial wiring installations where a uniform black finish is preferred over standard white or ivory plates. Constructed from brass, the plate is rated for 120V/15A service and carries an IP20 rating, indicating suitability for dry indoor environments rather than wet or wash-down locations. The DDGG configuration allows two decorator-style devices and two GFCI devices to be mounted within a single 4-gang assembly. The product is UL listed and backed by a 1-year warranty.
