

4-Gang Wall Plate, Brass Construction, Night Black Finish, 120V 15A, UL Listed

- 4-gang wall plate configuration for multi-device installations
 - Brass construction for durability in indoor applications
 - Night Black finish for a uniform dark-toned appearance
- Rated for 120V, 15A residential supply circuits
 - IP20 rated for non-waterproof, indoor use only
 - UL listed with a 1-year warranty

OVERVIEW

The C-VTG-AB-4-G-G-S-T is a 4-gang wall plate finished in Night Black, built from brass for residential and light commercial supply installations requiring a uniform dark-toned appearance across multiple devices. It fits multi-device electrical setups where a cohesive, vintage-style finish is needed across several switch or receptacle openings.

Constructed from brass and rated IP20 for non-waterproof, indoor use, the plate is designed for a 120V, 15A circuit. The Night Black finish is applied consistently across the four-gang configuration, giving a matched appearance across all four openings in a single installation.

The wall plate is UL listed and carries a 1-year warranty.
