

# 4 - Gang Wall Plate, GFCI, Two Switch, One Tamper - Resistant Opening, 120V 15A, Night Black Brass

- 4 - gang configuration with GFCI, two switch, and one tamper - resistant opening
- Brass construction with Night Black finish for consistent hardware aesthetic
- Rated 120V at 15A for standard residential and light commercial circuits
- IP20 rated, suited to dry indoor, non - waterproof environments
- UL listed device
- Backed by a 1 - year warranty

## OVERVIEW

The C-VTG-AB-4-G-S-S-T is a 4 - gang wall plate finished in Night Black with all - black brass construction, designed for residential and light commercial wiring applications. It accommodates a GFCI receptacle, two switches, and one tamper - resistant receptacle in a single ganged configuration, suitable for multi - device outlet installations where a unified, low - profile faceplate is required.

Constructed from brass with a Night Black finish, this wall plate is rated for 120V/15A circuits and carries an IP20 rating, indicating suitability for dry indoor environments. The all - black hardware finish provides a consistent aesthetic across the four device openings.

The device is UL listed and backed by a 1 - year warranty.
